EDUCATION & CERTIFICATIONS

2016

Networks, systems and security engineer

AFTI (Orsay)

2015

Bachelor's Degree in Computer Science

University of Franche-Comté

2019–2020

Certifications

Zscaler ZCCA / ZCCP

TECHNICAL SKILLS

Cybersecurity

CyberArk PAM | Qualys | Firewalls | ELK | Threat detection & SOC | McAfee EDR | Proxy & Web Filtering | DNS Security

Systems & Infrastructures

Windows Server | Linux | Windows | Active Directory | VMware ESXi | SCCM | IAM

DevOps & Automation

C# / .NET | PowerShell | Python | Ansible | REST APIs | Git | CI/CD Automation

LANGUAGES

French : Native

English : Professional proficiency

Portuguese : Fluent

PROFESSIONAL EXPERIENCE

Software Engineer

2024 - Present

INDEPENDENT PROJECT

- Designed and developed a modular software architecture using C# (.NET / Unity).
- Built a multi-layer procedural generation engine with configurable rules and constraints.
- Implemented complex distribution algorithms and event-driven logic.
- Optimized performance and managed system dependencies.
- Structured the full project architecture.
- Developed a full-stack web interface (React / Next.js) integrated into the ecosystem.

Cybersecurity Engineer

2019 - 2024

VINCI AUTOROUTES

- Maintained and secured critical infrastructure environments.
- Vulnerability remediation and investigation using Qualys.
- Hardening of Windows Server, Windows 10 and VMware ESXi.
- Active Directory remediation and patch management via SCCM.
- Deployment and administration of PAM solution (CyberArk).
- Centralized logging and SOC monitoring via ELK.
- Security automation and operational reporting.

Cybersecurity Engineer

2018 - 2019

BRITISH TELECOM

- Automated detection and escalation workflows via API integrations.
- Integrated SIEM ecosystem (RTIR, TheHive, ELK) for incident response.
- Security and network compliance automation using Ansible.
- PAM solution evaluation and integration.
- Delivered technical documentation in English.

Network Security Engineer

2017 - 2018

ORANGE CYBERDEFENSE

- Operational support for Air Liquide's global perimeter.
- Firewall administration (Checkpoint, Cisco ASA, Fortinet, Palo Alto).
- Proxy (Zscaler) and DNS security management.
- Incident handling in multi-site international environments.
