EDUCATION & CERTIFICATIONS

2016

Engineering Degree in Networks, Systems and Security

AFTI (Orsay)

2015

Bachelor's Degree in Computer Science

University of Franche-Comté

2014

DUT Computer Science

IUT of Belfort

TECHNICAL SKILLS

Backend Development

C# | .NET | .NET Core | ASP.NET | Node.js | REST APIs | SQL | OOP | SOLID Principles | Algorithm Design

Frontend Development

React | Next.js | Vue.js | TypeScript | HTML5 | CSS3 | Tailwind CSS | Responsive UI | Frontend API Integration

DevOps & Automation

PowerShell | Python | Ansible | Git | CI/CD Pipelines | Automation & Scripting | REST APIs

LANGUAGES

French : Native

English : Professional proficiency

Portuguese : Fluent

PROFESSIONAL EXPERIENCE

Software Engineer

2024 - Present

INDEPENDENT PROJECT

- Designed and developed a modular backend architecture using C# (.NET / .NET Core).
- Developed a configurable procedural generation engine (rules, constraints, priorities).
- Implemented distribution algorithms, event-driven logic, and complex state management.
- Optimized memory usage and CPU performance.
- Structured the overall project architecture (separation of concerns, modularity, maintainability).
- Developed a full-stack web interface using React / Next.js.
- Portfolio: https://braineatersgame.com/

Automation & Security Engineer

2019 - 2024

VINCI AUTOROUTES

- Automated security controls and reporting using PowerShell scripts.
- Industrialized patch management and system hardening processes.
- Developed internal tools for remediation and compliance tracking.
- Collected and analyzed data using ELK stack.
- Maintained critical high-availability environments.

DevOps & Automation Engineer

2018 - 2019

BRITISH TELECOM

- Automated detection and escalation workflows via REST API integrations.
- Integrated and interconnected SIEM platforms (RTIR, TheHive, ELK).
- Automated network compliance using Ansible.
- Developed orchestration scripts and internal tooling.
- Produced technical documentation in an international environment.
